## Executive Summary

This report summarizes the information disclosure practices of the Asian Infrastructure Investment Bank (AIIB or “the Bank”) under its [Policy on Public Information](#) (PPI) and related Bank policies from April 1 to June 30, 2025.

The report is divided into two sections. The first section examines AIIB’s practices in proactive disclosure, and the second provides an overview of AIIB’s responses to information requests.

### Proactive Disclosure

During Q2 2025, the Bank’s proactive disclosure of information tracked was 89% in compliance with AIIB’s requirements:

- The disclosure of the AIIB Condensed Financial Statements (Unaudited) for the Three Months Ended March 31, 2025, was deferred until after AIIB’s 10-year bond has settled, based on the general accepted practice to avoid the publication of financial statements during the settlement period of a transaction.
- All institutional information was disclosed in a timely manner in line with the requirements set out in the PPI, except for an updated policy that was delayed for disclosure. AIIB will strengthen training on the PPI through an online course that is under development, to be launched in Q2 2025.
- This report tracks operational information, including the initial Project Summary Information (PSI) document and the client’s draft environmental and social (ES) documentation for both nonsovereign-backed financing (NSBF) and sovereign-backed financing (SBF), as well as the full Project Document (PD) for SBF.

Of the 38 items tracked, 29 (76%) were disclosed in a timely manner, with delays in six PSI documents and three PD documents. AIIB updated the 2023 Directive on Operational Policy on Financing (OPF), effective May 22, 2025. The 2025 OPF Directive sets out time-bound disclosure requirements for PSI and PD documents. This report indicates whether the 2025 or the 2023 OPF Directive applies to a project. Internal procedures have been established to ensure reminders for disclosure timelines. AIIB will continuously increase its efforts to raise awareness about the new requirements in 2025 OPF Directive.

An update to AIIB’s Environmental and Social Framework (ESF) was approved on June 26, 2024 (2024 ESF), introducing provisions for the new Climate-Focused Policy-Based Financing instrument. In addition to that update, three other versions of the ESF have been posted on AIIB’s website: one as amended in February 2019 (2019 ESF), one as amended in May 2021 (2021 ESF), and one as amended in November 2022 (2022 ESF). The version applicable to a given AIIB-financed project depends on when the project enters AIIB’s investment pipeline. Most projects covered in this report are governed by the 2024 ESF, except for one, which was included in AIIB’s investment pipeline before Oct. 1, 2021. This report indicates which Environmental and Social Policy (ESP) applies to which projects.

### Responses to Information Requests

The Bank received 117 requests from the [Public Information Request portal](#), down 1.68% from the previous quarter and up 38% from the same period in 2024. All requests were closed

within the required deadline of 30 working days upon receipt. We partially declined a request for a list of German nationals who hold positions within the Bank; in accordance with Exception 1 of the PPI, we directed the request to AIIB's official website for already publicly available information without compiling a full list, as the undisclosed information pertains to individuals' personal privacy.

1. Proactive Disclosure

AIIB proactively discloses information according to the [Directive on Public Information](#) on:

Financial Information	Institutional Information	Operational Information
<ul style="list-style-type: none"><li>- Audited annual financial statements, including special funds and trust funds.</li><li>- Unaudited condensed quarterly financial statements.</li></ul>	<ul style="list-style-type: none"><li>- Basic documents</li><li>- Governance</li><li>- Policies, strategies, and directives; and amendments to these documents</li></ul>	<ul style="list-style-type: none"><li>- Nonsovereign-backed financing projects</li><li>- Sovereign-backed financing projects</li></ul>

### 1.1. Institutional Information

## 1.2. Operational Information

For operational information, this report tracks the disclosure of the initial Project Summary Information (PSI) document and the client's draft environmental and social (ES) documentation for both nonsovereign-backed financing (NSBF) and sovereign-backed financing (SBF), as well as the full Project Document (PD) for SBF.

An update to the Directive on the Operational Policy on Financing (OPF) was approved on May 22, 2025, replacing the 2023 OPF Directive. The 2025 OPF Directive provides a timeline of 10 working days following relevant reviews for the disclosure of initial PSI for SBF and NSBF and PD for SBF. This report indicates which OPF Directive applies to which projects.

An update to AIIB's Environmental and Social Framework (ESF) was approved on June 26, 2024, introducing provisions for the new Climate Policy-based Financing instrument. In addition to the update approved in the 2024 ESF, three other versions of the ESF are posted on AIIB's website: one as amended in February 2019 (2019 ESF), one as amended in May 2021 (2021 ESF), and one as amended in November 2022 (2022 ESF). The version applicable to a given AIIB-financed project depends on when the project enters AIIB's investment pipeline. Most of the projects covered in this report are governed by the 2024 ESF, except for one project, which was included in AIIB's investment pipeline before Oct. 1, 2021. This report indicates which Environmental and Social Policy (ESP) applies to which projects.

## Nonsovereign-backed Financing

Figure 1 illustrates the approval process for projects supported by NSBF and when key project information is disclosed according to the revised [OPF](#) (2024), the [ESP](#) (2022 and 2024), and their associated [Directives](#) (October 2023 and May 2025).
