2. Project Summary and Objectives

The objective of the program is to strengthen the capability of Government of India and state governments in India to respond to the needs of informal workers through a resilient and coordinated social protection system.

The program will provide the Government of India (GoI) with budget support to mitigate the severe adverse social and economic impact of COVID-19. Specifically, the program supports India's efforts to modernize its social protection system to address the risks and needs emerging from the COVID-19 pandemic.

Beyond COVID-19, the reforms would also address impacts on informal workers due to climate change vulnerabilities and rapid urbanization; expand use of digital technology for payments and cash transfers to workers; incentivize states to initiate climate change mitigation and adaptation measures (by, for example, allocating more grants to states that achieve higher air quality)

5. Project Implementation Update

The borrower has already agreed on 11 indicators with the World Bank and have completed the prior actions for all those indicators before loan negotiations with the World Bank. Currently, the borrower is in the process of implementing the actions needed to fulfil the requirements under those 11 indicators. The interim progress of these actions are expected to be presented by the implementing entity in Q3 2022.

Components Physical Progress	Environmental & Social Compliance	Procurement
------------------------------	-----------------------------------	-------------

Financial Management:

The project assessment notes that the public financial management system in India has (i) a well-organized and systematic approach to budget formulation; (ii) a high level of fiscal transparency; (iii) comprehensive recording and management of cash balances, debt, and guarantees by the government; and (iv) timely external audits by the Comptroller and Auditor General of India. The 2010 Public Expenditure and Financial Accountability assessment as well as other recent assessments carried by WB noted that strengthening is still required in some areas.

No reports such as audited financial statements are expected to be submitted by the borrower for such budget support operation for which we are lending directly to the country's Ministry of Finance.

6. Status of the Grievance Redress Mechanism (GRM)

Potential complaints will be handled through the World Bank's independent accountability mechanism.

7. Results Monitoring

Borrower has agreed to implement a set of 12 outputs (related to 11 prior actions). Prior actions to achieve these results indicators have been completed by the borrower by the time of loan negotiations.
